BANKERS : BANK OF BRITISH COLUMBIA.

THE COMPANY IS FORMED FOR the purpose of acquiring the property known as Belmont Factory, situate on Esquimalt Harbor, and business carried on therein, consisting of Tanning

and Boot and Shoe Manufacturing, and of continuing the same.

The purchase would include the Land, Buildings, Machinery, Plant, Stock-in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disinterested persons.

The Boot and Shoe Department has for the past two years been carried on under the management of Mr. Switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Tannery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business.

The Factory is well arranged, and is fitted with the most approved Machinery.

The Tannery has every appliance for the saving of abor.

The water rower which is utilized for the conduct of Works, is all that could be desired, and could readily be increased to ten times its present power, if at any time required, either for the purposes of this undertaking, or for any other Manufactory. The supply is derived from Springs on the Estate, is very soft in quality, and is never failing.

In fact the business is in thorough working order, and M. Switzer's services as Manager of the Works will be

The Water Power which is utilized for the conduct of

In fact the business is in thorough working order, and Mr. Switzer's services as Manager of the Works will be retained upon terms favorable to the Company.

The Land consists of \$45 acres, known as the Spring Vale Eatate, some of which is of excellent quality.

The Timber is of considerable, value for Firewood, the situation being favorable for easy delivery.

The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactory.

The goods are specially adapted to the requirements of the Provincial trade, have given general satisfaction, and at a profit successfully compete with the imported article.

rticle.

The sales for 1872 amounted to nearly \$30,000, which, considering the short time the enterprise had been in operation, shows the favor with which the products have been received.

The importations of Boots and Shoes as declared at the The importations of Boots and Shoes as declared at the Custom House for the year 1871, was about \$100,000, representing a selling value, after adding duties, etc., of say \$150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertak-

ing the entire field for the operations of the undertakage.

The Tannery operations only commenced in Angust last, and as the tanning process involves a period of several months, the business of this bepartment is in its infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of litides, the outturn will be sufficient for the supply of litides, the outturn will be sufficient for the supply of litides, the outturn will be sufficient for the supply of litides, the outturn will be sufficient for the supply of litides, the outturn will be sufficient for the supply of litides, the outturn of the Boot Factory,

The Belmont Boot and Shoe Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realised.

The value of industrial institutions to the well being of any country is indisputable, and as the hides produced in the Province are now being manufactured into leather, which in turn is made into Boots and Shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported, the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive institution insures will, aside from the renuncrative character of the business, have due weight with all who are in any way interested in the prosperity of the Province.

It should be remarked that this company will become

vince.
It should be remarked that this company will become
at once possessed of two businesses with estab-lished
connections, without any interruption to working or
loss of time in transfer, and will therefore have from the irst day of its possession a revenue from a busines which is capable not only of immediate, but, in th which is capable not only of immediate, but, in the future, almost unlimited extension.

Most similar undertakings of any magnitude are now worked successfully by joint stock companies, both in Great Britain and in the United States.

The transfer of the property to the Company will only be made upon terms satisfactory to the Provisional Board of Directors, based upon the valuation. The purchase will be effected to a large extent in shares retained by the present proprietor, a portion of which will not by the present proprietor, a portion of which will not participate in any profit until a dividend of 10 per cent has first been paid to the new shareholders.

most, wanton misrepresentation of facts.' The facts as we gave them were taken from letters over Sir Hugh's own signature, and are therefore irrefutable. It is not we who July 28th 18-3. have blackened his reputation-he stands before the world self condemned. Never in the history of the Dominion has there been such Department of Marine and a wholesale system of bribery and corruption practised in the prosecution of any scheme, Sir Hugh Allan confesses to in order to obtain the charter for the construction of the Canada Pacific Railway. Three hundred and fifty-six thousand five hundred dollars in office of the undersigned. gold, and eight hundred and fifty thousand dollars in railway stock was the price he was prepared to pay, and among other recipients of his bounty, at least in the shape of railway stock, appears the name of Mr. Henry Nathan The Colonist, referring to this matter, says : " As for the intimation that it was proposed to make a gratuitous distribution of the \$850,-000 alluded to, and of which Mr. Nathan was to receive \$50,000, however flattering to Mr Nathan's influence the suggestion might be, we must protest against such an absurdity. and further on it adds, " The suggestion that the stock was to pass to these parties as a free gift is something too absurd to be entitled to remark," The fact is, the thing is Coo glaring to admit of any satisfactory explanation. In a previous article we quoted

from the Toronto Leader and the London Free Press, both leading Ministerial papers, and not at all likely to misrepresent either Hugh Allan, the Government, or Henry Nathan, to show that the view they took of the matter was precisely in accord with our own the subject, viz., that in the allottent of stock and in the expenditure of the money to which Sir Hugh referred, both were intended for purposes of heiters, and writing on or before that date. the matter was precisely in accord with our were intended for purposes of bribery and corruption of the furtherance of his railway scheme. Here is another extract taken from ment at the capital, and let us see what it has say on this subject. It asks: to say on this subject.

'Does any same man, with a knowledge of the English language, believe that Sir Hugh Allan meant these figures to represent a reservation of stock for "subscription," either by Henry Nathan or anybody else? The idea are clear and altogether unambiguous. He says distinctly that in addition to money payments, it seemed to him certain that the following will have to be distributed: * *

* Henry Nathan \$50,000 * * * Henry Nathan, \$50,000. * * * I do not think we can do with less and may have to give more. And to still further contions of stock were meant to be a gift, he specifies distinctly the proportions of the sacrifice, or surrender, which each of his pertners and himself should make; or in his own words, how much stock Smith, McMullen and Allan should give up. Even at this point Sir Hugh does not stop in making his meaning plain. (Or and the stop in making his meaning plain. his meaning plain, for after explaining the amount in stock to be given away he says: I do not think we will require more than \$100,000 in cash. Now does anybody sup- PUBLIC AUCTION. pose that Sir Hugh meant the cash to be reserved for subscription? Yet he treats the cash sacrifice and the stock sacrifice in precisely the same way, with the single omis sion of the names to whom the cash was to have been paid, whereas he did tell who was

and bearing. It does no injustice to Mr. Nathan, as the extract is just as applicable to him as to Mr. Brown, and for ought we know a little more so. It may, in the estimation of our contemporary, be very complimentary to Mr. Nathan, that Sir Hugh Allan should esteem his influence as a member of the House of Ucmmons of sufficient importance to secure it at a cost of ifty with Oirs, Masts, Sails, Awning, Boat thousand of as worth of railway stock, but Hook, Etc. we apprehend there are very few honest men in this community who will so view the matter. With Mr. Nathan's acts as a private individual, neither we nor the public have any right to interfere or call in ques ion ; but first one of the representatives of the most imconduct not only reflects for good or ill upon himself individually, but also upon the constituency be represents. Any discreditable act of which he may be guilty, is a reflection upon the good name and same of his constituents, whose accredited agent he is at the Dominion capital. The Colonist may accuse us of being actuated by jealousy, or some other sinister motive, in thus referring to this very disagreeable and painful matter; but we re-pudiate any feeling of the sort. Toward Mr. Nathan we entertain no feeling either of envy or jealousy. We are jealous of the good reputation of our Province abroad, and it is because we feel that in the matter of Mr. Nathan's connection with this railway scandal the character of our people and country has been something seriously compromised, that we again refer to it. We regret that Mr. Nathan is not here to answer for himself touching the matters whereof we cient Stramboat subject at all times to the have been speaking. Possibly he might be approval of the Postmaster General. as the facts thus far elicited seem to mation as to conditions of proposed Contract indicate. DOMINION DAY IN THE SISTER PROVINCE .-The anniversary of the confederation of the the Premter in an awkward position, and Provinces of British America was celebrated such being the state of things, it was to be throughout the prairie Province of Manitoba in a suitable manner. The citizens of Winnipeg and vicinity assembled to the number of about 2,000, and enjoyed themselves in horse-racing and sports outside of the town. The whole of the afternoon was employed in eports of every description. From early dawn might have been heard the incessant report of firearms and other demonstrations of joy. It was only a few days previous to the 1st of July that a few of the citizens thought seriously of celebrating Dominion Day, and having the pleasure of a public holiday. A committee was appointed to soffert subscriptions and make preliminary arrangements, and in their canvass they met with that success for which Winnipeg is so eminently noted. The weather was every thing that could be desired, and the grounds although a little too far from town, were as suitable for the occasion as any in the Dominion. A great number of people from the country were present and participated in the day's amusements. The garrison, infantry and artillery, paraded on their camp-ground at noon and fired the usual salute. "Alta California" on the Huntington Charges.

The people and press of England, who have properly enough, and certainly, not too severely condemned our American bad deeds, our credit mobilier swindles, and our Erie railroad ra-culties, are tabooed henceforth rom commenting on them as American examples of cheats and swindles, from the character of which, their immoral nature and tendency, the good British public and public organizations, are free. The recent developments in the Canadian railroad affair laid all the little games of Jay Gould, Fi k and confreres, and the pure men of the Oake- Ames stamp, entirely to the shade. To obtain the charter for the Conadian Pacific Railroad, it was thought necessary to secure certain members of the Government, and certain capituitsts. Sir Hugh Allan was the man to do the work. The scandal and the charges of bribery got out, and an investigation was atterepted. It was smothered by the Premier. as is charged, although ordered by Parliament. But that has not smothered it, for the Toronto Globe immediately published four columns of the letters of Sir Hugh in somof which he opens his heart freely, a most as f making a confession. Sir Hugh geined his point, gained the Government's association with bimself and company, but to do this ing upon the subject until such opportunity he paid out \$343,000. What he gained was, should arrive as would enable them to be the franchise, the fresidency of the road for himself, a majority of the stock; the fifty millions acres of land and thirty millions of dollars in cash, beside other good things. This rather beats the negotiations of the shovel-maker, Oakes Ames.'

HOLLOWAY'S OINTMENT.

OLD SORES AND OLD SKIN DISEASES. The seeds of these disorders are effectually expelled by this penetrating Ungant, not only from the superficial parts,

overcome by frequently fomenting the affected parts in warm water, drying, and immediately applying this soothing Ointment. The same procedure applies equally well for enring sore throat, diptherria E. ment alone prevents degenerating the ment alone prevents degenerating the more serious maladies. The Ointment has the same derivative powers over chest complaints as a blister possesses, without causing pain or debility.

> HEMORRHOIDS-PILES, AND VBSCESSES. Thousands suffer severely for years from these annoying complaints through false delicacy. Let such purchase a pot of Holloway's Ointment, read the directions which accompany it, act upon them to the letter, and they will, without difficulty, succeed in obliterating every vestige of these harrassing ailments. ACCIDENTAL INJURIES, INFANTILE AILMENTS

In cuts, bruises, sprains, burns, and scalds, it will be found cooling, sedative and healing. The part effected should be fomented in warm waier, dried gently, and the Ointment should be instantly applied. This purifying Ointment may be safely used in all eruptions, chafings and other cutaneous affections to which children are liable. BAD LEGS, BAD BREASTS, OL D SORES AND

ULCERS. By rubbing the Ointment round the ffected parts, it penetrates to the tissues beneath, and exercises a wonderful power on all the blood flowing to, and returning from, the diseased part. The inflammation diminishes, the pain becomes less intolerable, the matter thicker, and a cure is soon effected. In all long standing cases, Hollaway's Pills will thoroughly

expel all depraved humors from the body, GLANDULAR SWELLINGS, STIFF JOINTS. This class of complaint yields without difficulty to the cooling and anti-inflammstory properties of this famed Ointment It should be well rubbed over the affected water. It acts by stimulating the absorbents to increased activity, restraining ulceration, and promoting a free and copious circulation in the parts affected, and hence speedily and effectually ensur-

ing a cure. GOUT, RHEUMATISM AND PARALYSIS. Gout and Rheumatism arise from inflammation in the parts affected,-to effect a permanent cure, adopt a cooling diet, drink plenty of water, take six of these famous Pills night and morning, and rub the Ointment most effectually twice a day into the suffering parts, and a sure is certain. The paralytic patient chould take about three Pills twice at week, and let the Ointment be well rabbed into the paralyzed limb' which will, in a very little time, be greatly benefit-

ed by this treatment. ERUPTION ON THE SKIN. In this class of complaints, no matter the age, the sex, or the place, or under what name, the lisease may be classified, it may be cured if this Ointment be well rubbed into the system, and Holloway's Pills taken night and morning to purify

Both the Ointment and Pills should be used in the following cases :-Pad Legs Tistulas **Bad Breasts** Gout Glandular Swellings Bunions Lumbago Bite of Moschitoes Piles and Sand-Flies.
